

*“Three years ago I saw the need for Welcon to take control and manage our cash flow more effectively and more efficiently if we were to implement the strategies and achieve the goals that we had set for business growth.*

*“GTC took the time to understand our business and helped us to develop financial targets that were realistic but would expand our business to where we wanted it to be.*

*Every month GTC works with our staff to monitor our actual performance against the budget so we know that everything is on track. They have empowered me to make informed business decisions when I need to make them. GTC are more like a business partner than just accountants.”*

- ***Pauline Kelly, Director Administration & Finance Manager, Welcon Technologies, Gladstone QLD***
